

Flexi Fin Extension FF100EXT Pan Connector

Installation by a registered person only

- Cut the bracket in line with the joist to hold the pan connector
- Always install in a vertical position (as per picture)
- Pan connector is only suitable for installation with 100mm DWV pipe
- Lubricate the rubber fins on the pan connector and install it into the waste pipe
- Ensure pan horn has sealed onto the inlet
- Always test to ensure system is watertight
- Complies with the NZ Building Code G13
