

Flexi Fin Flexible FFFLEX Pan Connector

Installation by a registered person only

- For use with “back to wall” pans
- Always install in a vertical position (as per picture)
- Pan connector is only suitable for installation with 100mm DWV pipe
- Lubricate the rubber fins on the pan connector and install it into the waste pipe
- Install the pan connector with the pan a short distance off the wall and check the seals
- Always test to ensure system is watertight
- When watertight, push pan back against the wall
- Complies with the NZ Building Code G13
